

WISHING YOU WERE HERE FISHING REPORT

March 29, 2002

Welcome folks, to the first Westcoast Fishing Adventures fishing report of the 2002 fishing season. It has been a long winter and we are very happy that is almost over.

First off for those of you who are already our guests and members of the fishing report list we would like to welcome you back for another great season. For those of you who are joining us for the first time salutations. This report will feature our guest's photos once a week as well as a brief outline on weather, water and fishing conditions as well as any new events that may be unfolding within our organization. John and Paulette Stuart who's food and hospitality to our guests has been unequalled are also back, ready for the new season. We would also like to welcome Gord Mckean (Gill's younger brother) to our guiding fraternity. Gord shares our great passion for the sport of angling and is sure to be a great addition to our team.

Our trade show season has finally come to an end and was even more successful than last year. We have to thank a lot of our previous guests (friends) for helping us make it so. With your support we are able to continue to give you the great memories that you deserve.

Now on to the fishing!

Derek Fergus and Don Roberts are our first guests of the season. A few of their fish will be the first photos featured on this report. The first Steelhead of the season honors goes to Don who landed a beautiful hen of about 10 lbs on March 27 on his spey rod using an orange marabou fly. Derek landed a nice male yesterday while float fishing a pink worm, which is also being featured as a photo of the week fish.

Water conditions have been very low and clean for the duration of the last month due to extremely cold temperatures for this region. Thankfully the weather has begun to warm bringing with it rising water and more fresh fish. The long term forecast is calling for an increase in the warming trend. Yes, we are looking forward to it. The spring Steelhead season is just underway and all indications are that it will be a good season.

Again, to everybody who is receiving this report welcome to 2002. The photos of the first two Steelies will be attached with this email. Until next week remember to keep your tip up! Tight Lines!
