

WISHING YOU WERE HERE FISHING REPORT ***May 23, 2003***

G'Day folks. This weeks report will be short as we have not been guiding that much although Gill is on the water today and for the next few days. We have been able to get out and do little fishing for ourselves lately. All the rivers are low and clear and the weather has been great. It has just started to sprinkle a few rain drops around here. With it clouding over the nights will remain warm bringing down the rest of this years snow melt. The Skeena will be fishable by mid June this season.

The fishing has been steady with 4 – 6 Chinook bites for every day that we have been out. As this month wanes into June there are going to be more and more Kings in all of our rivers each day. The big Moe's are on their way. We are breaking out the big guns of summer! This week's photo is of a young guide in training. For those of you who receive the report with out the pictures have a look at our website.

We still have some fantastic Coho and Steelhead dates left open for this year. We have nobody fishing during the week of October 26 to November 1! You can't get better dates! Drop us line to hear what other great dates we have left. See you next week. Tight Lines!

Daddy's little girl, Taylor Gyger is loving the guide training so far!

It was a great day. You gotta love it when your 3 year old daughter asks to fishing in the boat for BBBIIIGG FISH! I think she may be hooked for life! At least my fingers are crossed.

Tight Lines Everybody!
