### Spring Steelheading is now over!

I cannot believe the spring Steelhead season has past us already, time seems to be flying by. With that said, it was a productive year, even total beginners got into some fine fish on the fly. You just never know what Mother Nature is going to give you! But we had another strong season with lots of steelhead. No real monsters, only a few 20 to 24 pounders. I know you are thinking “that’s a trophy fish.” You are correct however there is still one fish that stands out above the rest and that is a steelhead that was caught by Andrew Fairclough on the fly a couple years ago weighing in at 35lbs!! This was a true monster and I often wonder if I will witness another fish that size in the rest of my career. Sorry but I had to talk about it one more time.

Photo above of a fine lady Colleen Millett. This was Colleen's first Steelhead. Great job you deserved it!

The next highlight of the season was a 20lb double header caught by Mike & Walt. Hey guys what can I say, you had a great guide! And a lot of luck but you pulled it off!!! Excellent fishing boys.

There really are just too many highlights to mention however the best of all was getting the chance to guide NHL hockey player, Brendan Morrison, a center forward for the Vancouver Canucks. This guy is a class act with a great personality. I really enjoyed my time on the water with him and his friends, who by the way out fished him! Sorry Brendan, had to tell the truth even though this is a fish tale!

All our guests this spring were great and we enjoyed ALL of you. Thank You SO much for coming to visit us and we hope to have you all back soon! Please drop us a line any time.

I have stories about everyone ... but unfortunately I can not tell them all so below are a few pics of our 2006 Spring Steelhead Season.....
