

## **WISHING YOU WERE HERE FISHING REPORT**

September 22, 2003

**Hello fellow fisher folk. Well the fall rains did come and soaked up our dry landscape. With the autumn rain came the fabulous fish of the fall! This has been a great year so far on the Skeena for the big Northern Coho. All of September has been good save for a few days of inclement weather and water. The tributaries are filling up with fish and the rest of the fall is shaping up to be a banner year. The Kitimat started off slow during the beginning of the month but has turned on during the last few days and should finish the season strong. The Steelhead on the Skeena finally showed in good numbers during the month. Although the average size of fish and numbers are down slightly from the previous few seasons we have had a few of our guest's land twenty plus pound fish. Way to go Le Anne!**

**We will be heading up to the Nass system this week for a little pre fishing before our October Steelhead session kicks off. We will have a full blown September review when we get back on Sunday or Monday.**

**I will be welcoming input from my (little bro) Rob for our future reports and am looking forward to comments from our guests that they might cast our way.**

**This week's photos feature Don and Arnie from the San Fran Bay area. These two guys have become great friends of Westcoast Fishing Adventures and we look forward to having them back for years to come. Keep your tip up. Tight Lines!**

*Arnie Milichichi with his 19 pound Northern Coho!  
Arnie doesn't usually smile this much. I didn't have to coerce this one from him!*

*Don Osborne with his first Skeena Beauty! All of these great fish are bright silver when caught on the lower Skeena. This means that their fighting qualities can be awesome! Just ask Don about the proverbial one that got away. Ha Ha!*

From Gill myself and the rest of the Clan, have a great week! Ciao!

P.S

All of our great photo's can be viewed on our website's photo page!
